Established in 1995 Proform Tooling Ltd has enjoyed a period of steady growth ever since. Still being family owned allows us the ability to offer a high quality service whilst maintaining integrity and customer service levels that other companies cannot. Proform Tooling sharpens and supplies all tooling to the woodworking industry and hold accounts with all the major tooling manufacturers such as Titman Tip Tools Ltd, Trend (UK) Ltd, Freud UK Ltd and many more.

We have built a reputation of outstanding service which extends beyond the limits of customer expectation. This involves advice given to customers through our experience with working in certain situations, if we don't have the required information to hand, we will find it for you. Our continuing upgrading of machinery enables our highly qualified staff to ensure our consistently good quality service. For your convenience, we provide a weekly collection and delivery service. Alternatively you can drop items off and arrange a convenient time for them to be collected.

With the desire to improve, we focus on maintaining a high standard of quality and service.

CNC Profiling.

Here at Proform Tooling Ltd, we offer an in house complete bespoke profiling service. This ranges from the sharpening of existing designs, the supply of most manufactured cutter block systems right through to the design and manufacture of individual profiles.

All cutter designs are produced on CNC Machinery from detailed drawings and wood samples. Most profiles are produced within 7-10 working days.

Prices on application, please call with your specific requirements.
